28. Export data

<b>Use Case</b>	UC-1	<b>Use Case Name</b>	View Announcements
<b>Created By</b>	Nat Welch	<b>Last Modified By</b>	Nat Welch
<b>Date Created</b>	1/26/09	<b>Last Change</b>	2/17/09
<b>Actor</b>	<b>Student</b>		
<b>Description</b>	The system shows all of the <b>Announcement(s)</b> posted by the <b>Teacher</b> sorted with the most recently posted <b>Announcement</b> at the top of the list. A <b>Student</b> can view this list and each <b>Announcement</b> shows a title, time and date, and the content of the <b>Announcement</b> .		
<b>Pre-conditions</b>	<b>Student</b> must be enrolled in the <b>Course</b> and authenticated with the system.		
<b>Post-conditions</b>	The <b>Announcement</b> list as specified in the description is displayed.		
<b>Normal Flow</b>	<ol style="list-style-type: none"><li>1. Actor chooses <b>Announcement(s)</b></li><li>2. System displays list of all of the <b>Announcement(s)</b></li><li>3. Actor chooses an <b>Announcement</b></li></ol>		
<b>Alternate Flow</b>	None		
<b>Frequency of Use</b>	Once a day		
<b>Exceptions</b>	If no <b>Announcement</b> has been made the system displays a "No announcements" message.		
<b>Includes</b>	None		
<b>Special Requirements</b>	None		
<b>Assumptions</b>	None		
<b>Notes and Issues</b>	None		
<b>Priority</b>	High		

<b>Use Case</b>	UC-2	<b>Use Case Name</b>	View Grade
<b>Created By</b>	Nat Welch	<b>Last Modified By</b>	Nat Welch
<b>Date Created</b>	1/25/09	<b>Last Change</b>	2/17/09
<b>Actor</b>	<b>Student</b>		
<b>Description</b>	The System displays a table that summarizes all of the grades the Actor has received for the <b>Course</b> . This summary includes the <b>Assignment Name</b> , <b>Assignment Grade</b> , and <b>Assignment Total</b> for each <b>Assignment</b> .		
<b>Pre-conditions</b>	<b>Student</b> must be enrolled in the <b>Course</b> and authenticated with the system.		
<b>Post-conditions</b>	The <b>Announcement</b> list as specified in the description is displayed.		
<b>Normal Flow</b>	<ol style="list-style-type: none"> <li>1. The actor chooses to "View Grade"</li> <li>2. The system presents a table of <b>Student Assignment Grades</b> and a <b>Total Grade</b>.</li> <li>3. The <b>Student</b> can choose to select a column of the table to sort.</li> </ol>		
<b>Alternate Flow</b>	None		
<b>Frequency of Use</b>	Once a week		
<b>Exceptions</b>	<p>If an <b>Assignment</b> has not been graded yet, System displays a table with <b>Assignment</b> names but the <b>Assignment Score</b> is not displayed.</p> <p>If no <b>Assignment</b> have been graded yet, System displays the words "No Assignments Yet" instead of the table.</p>		
<b>Includes</b>	None		
<b>Special Requirements</b>	The <b>Student</b> can see only his own grades. This is a requirement specified by the Peer-Grading section of FERPA.		
<b>Assumptions</b>	None		
<b>Notes and Issues</b>	None		
<b>Priority</b>	High		

<b>Use Case</b>	UC-3	<b>Use Case Name</b>	Check Course Standing

<b>Pre-conditions</b>	The Actor must be authenticated by the system.		
<b>Post-conditions</b>	Any <i>other</i> <b>Announcement</b> must be unaffected by the editing of an <b>Announcement</b> . The system will update <b>AnnouncementDate</b> when storing changes		
<b>Normal Flow</b>	1.The Actor selects an <b>Announcement</b> for editing 2. The system displays the selected <b>Announcement</b> 3.The Actor selects what <b>Announcement</b> data to edit 4.The Actor edits <b>Announcement</b> data 5.The Actor selects to store any changes 6.The system stores updated <b>Announcement</b> data 7.The system displays the edited <b>Announcement</b>		
<b>Alternate Flow</b>	At step 5 of Normal Flow: 5a. The Actor selects to cancel the edit 6a. The system returns to step 1 <i>without</i> altering any <b>Announcement</b>		
<b>Frequency of Use</b>	Once a week		
<b>Exceptions</b>	If <b>Announcement</b> could not be stored, the system displays an error.		
<b>Includes</b>	None		
<b>Special Requirements</b>	None		
<b>Assumptions</b>	None		
<b>Notes and Issues</b>	<b>Teacher Assistants</b> with the <b>ManageAnnouncement Permission</b> can also perform this action.		
<b>Priority</b>	High		

<b>Use Case</b>	UC-22	<b>Use Case Name</b>	Send Email
<b>Created By</b>	Katherine Blizzard	<b>Last Modified By</b>	Nat Welch
<b>Date Created</b>	1/31/09	<b>Last Change</b>	2/10/09
<b>Actor</b>	<b>Teacher</b>		
<b>Description</b>	Actor can send an <b>Email</b> out to a student by student user name or email address or to the entire <b>Course</b> or <b>Course(s)</b> .		
<b>Pre-conditions</b>	The Actor must be authenticated by the system.		
<b>Post-conditions</b>	Applicable students receive email from the Teacher.		
<b>Normal Flow</b>	<ol style="list-style-type: none"> <li>1. <b>Teacher</b> selects a <b>Course(s)</b>. Then <b>Teacher</b> proceeds to fill out the title and body of the <b>email</b> as desired.</li> <li>2. If a <b>file</b> name of a <b>file</b> to be uploaded is present, the user uploads the <b>file</b> to the system.</li> <li>3. The system sends the <b>email</b> to the specified <b>Course</b>.</li> </ol>		
<b>Alternate Flow</b>	None		
<b>Frequency of Use</b>	Once a day		
<b>Exceptions</b>	An error occurs if the <b>Teacher</b> enters nothing, an invalid <b>username</b> , an invalid <b>Course name</b> or invalid <b>email address</b> in the address line and the email is not sent. If the <b>Teacher</b> enters nothing for the <b>email title</b> , an error is displayed. If the <b>Teacher</b> sends an <b>email</b> with no body, a dialog box informing the <b>Teacher</b> is displayed.		
<b>Includes</b>	None		
<b>Special Requirements</b>	None		
<b>Assumptions</b>	None		
<b>Notes and Issues</b>	<b>Teacher Assistants</b> with the <b>ManageAnnouncement Permission</b> can also perform this action.		
<b>Priority</b>	Medium Low

<b>Use Case</b>	UC-26	<b>Use Case Name</b>	Curve Adjustment
<b>Created By</b>	Nat Welch	<b>Last Modified By</b>	Nat Welch
<b>Date Created</b>	1/27/08	<b>Last Change</b>	2/10/09
<b>Actor</b>	<b>Teacher</b>		
<b>Description</b>	Our tool will have the ability to adjust the grading curve for each <b>Course</b> . Five text boxes with plus and minus buttons will let the Teacher increment or decrement the curve. Above graphs (described in output) will display the new curve. The new curve will not go into effect until the teacher clicks the apply button at the bottom of the page.		
<b>Pre-conditions</b>	Teacher must be authenticated with the system. The teacher either types in, or uses buttons to select a desired curve. Each box will be related to a certain grade, e.g. A, B, C, D and F.		
<b>Post-conditions</b>	The information is saved to the database upon clicking apply and the refreshed page shows the new changes. Above the curve modifier boxes there will be two pie charts. The first pie chart will show the distribution of the grade by percent. So if the curve is set to have the A/B border at 90%, the B/C border at 80%, the C/D border at 70%, and the D/F border be at 50% there would be a pie chart that has 50% for F, 20% for D, and 10% for each A, B and C. Each section will be a different color. The second pie chart will show how many students are getting each grade. The colors in these should be the same so the Teacher can easily understand differentiate between grades on both charts. Like all charts in our system, the charts should be properly labeled. The charts should also be the same size.		
<b>Normal Flow</b>	TBD: Nat Welch 2/16/09		
<b>Alternate Flow</b>			
<b>Frequency of Use</b>	Once a week		
<b>Exceptions</b>	If there are no students in the <b>Course</b> , the system throws an error.		
<b>Includes</b>	View Roster		
<b>Special Requirements</b>	None		
<b>Assumptions</b>	None		
<b>Notes and Issues</b>	To Be Rewritten by Nat. Needs to be completed by Friday		
<b>Priority</b>	Medium		

<b>Use Case</b>	UC-27	<b>Use Case Name</b>	Import Data
<b>Created By</b>	Katherine Blizzard	<b>Last Modified By</b>	Nat Welch
<b>Date Created</b>	1/31/08	<b>Last Change</b>	2/10/09
<b>Actor</b>	<b>Teacher</b>		
<b>Description</b>	The <b>Teacher</b> imports a file containing data from <b>rosters</b> , <b>students</b> , or <b>assignments</b> .		
<b>Pre-conditions</b>	The <b>Teacher</b> is authenticated with the system. The Teacher has created or received a data file containing at minimum a <b>Student's username</b> and the <b>Course</b> they belong to. If the <b>Teacher</b> is uploading an <b>Assignment Grade</b> data file, the <b>assignment</b> number and type (Test, Quiz, Final, Homework, Participation, or Other) is required.		
<b>Post-conditions</b>	The System has updated all <b>Course(s)</b> and <b>students</b> to match the result in the spreadsheet.		
<b>Normal Flow</b>	<ol style="list-style-type: none"> <li>1. <b>Teacher</b> is prompted if he will import a <b>Course</b> (a list of <b>Students</b>), a <b>Student</b> (a list of their <b>assignment grades</b>), or an <b>Assignment</b> (a list of <b>students</b> and their grades they received on that <b>assignment</b>).</li> <li>2. The Teacher uploads the file to the system, which creates a new <b>Course</b> if the Teacher selected <b>Roster</b> or otherwise searches for each <b>student</b> and updates their <b>Assignment Grades</b> accordingly.</li> <li>3. The system recalculates all <b>Student Total Grades</b>.</li> <li>4. A completed message is given to the <b>Teacher</b></li> </ol>		
<b>Alternate Flow</b>	None		
<b>Frequency of Use</b>	About twice per week.		
<b>Exceptions</b>	If the <b>Assignment Grade</b> to be updated has a grade already in place, the System displays an error.		
<b>Includes</b>	None		
<b>Special Requirements</b>	None		
<b>Assumptions</b>	The system assumes the teacher has labeled spreadsheet columns appropriately and put the correct number in the correct column.		
<b>Notes and Issues</b>	None		
<b>Priority</b>	Medium Low		

<b>Use Case</b>	UC-28	<b>Use Case Name</b>	Export Data
<b>Created By</b>	Kalvin Vu	<b>Last Modified By</b>	Nat Welch
<b>Date Created</b>	1/31/08	<b>Last Change</b>	2/10/09
<b>Actor</b>	<b>Teacher</b>		
<b>Description</b>	The system will be able to export each <b>Course</b> and all data items within the <b>Course</b> to a file on the <b>Teacher's</b> computer.		
<b>Pre-conditions</b>	The desired <b>Course</b> must already exist.		
<b>Post-conditions</b>	The <b>Teacher</b> receives a file containing <b>Course</b> information.		
<b>Normal Flow</b>	<ol style="list-style-type: none"> <li>1. The <b>Teacher</b> selects a <b>Course</b> he wishes to export.</li> <li>2. The System compiles the <b>Course</b> information into a <b>file</b>.</li> <li>3. The System presents this <b>file</b> for download to the <b>Teacher</b>.</li> </ol>		
<b>Alternate Flow</b>	None		
<b>Frequency of Use</b>	Once a quarter.		
<b>Exceptions</b>	If exporting fails then an error message is displayed. Exporting can fail due to an inconsistency with the storage or a network error.		
<b>Includes</b>	None		
<b>Special Requirements</b>	The <b>Teacher</b> must have access to program that can display the downloaded file. Only <b>Teacher</b> has access to this use case.		
<b>Assumptions</b>	The system assumes the teacher has labeled spreadsheet columns appropriately and put the correct number in the correct column.		
<b>Notes and Issues</b>	Look into password protecting or encrypting the exported file.		
<b>Priority</b>	Medium
